

FIRST DAY OF SPRING

MARCH

March 20th or 21st is the first day of spring. Warm weather is on the way at last. Say goodbye to winter. The weather will continue to get warmer and warmer as the days pass. It's time for flowers, baby birds, and budding trees. Welcome spring with the special weather activity below.

PROCEDURE:

1. Find the weather page in your newspaper.
2. Color the bars in the graph below to show each day's highest temperature. Use a different color for each day. Do this every day for one week.
3. Use the information on the graph to answer the questions.

1. The warmest day of the week was _____.
2. The temperature became (warmer/colder) _____ during the week.
